THERE'S A THOUSAND REASONS TO CHOOSE OCEAN BOTTLE

A BOTTLE
FOR LIFE

ONE FOR ONE THOUSAND

Every Ocean Bottle funds the collection of 11.4kg/**25lbs** of ocean-bound plastic, equivalent to **1000** plastic bottles.

Our award-winning sustainable design, 10 year warranty and spare parts for life programme means our reusable products won't get put on the shelf.

An Ocean Bottle product shows the world that its owner is part of a community of people doing good for the ocean and a reminder of the impact created.

HOW IT WORKS HOW IT WORKS

1. Funding plastic collection with every product sold

2. Collectors exchange plastic for money and get access to social resources such as healthcare and education.

3. Ocean-bound plastic is sorted and recycled into new products or co-processed into cement

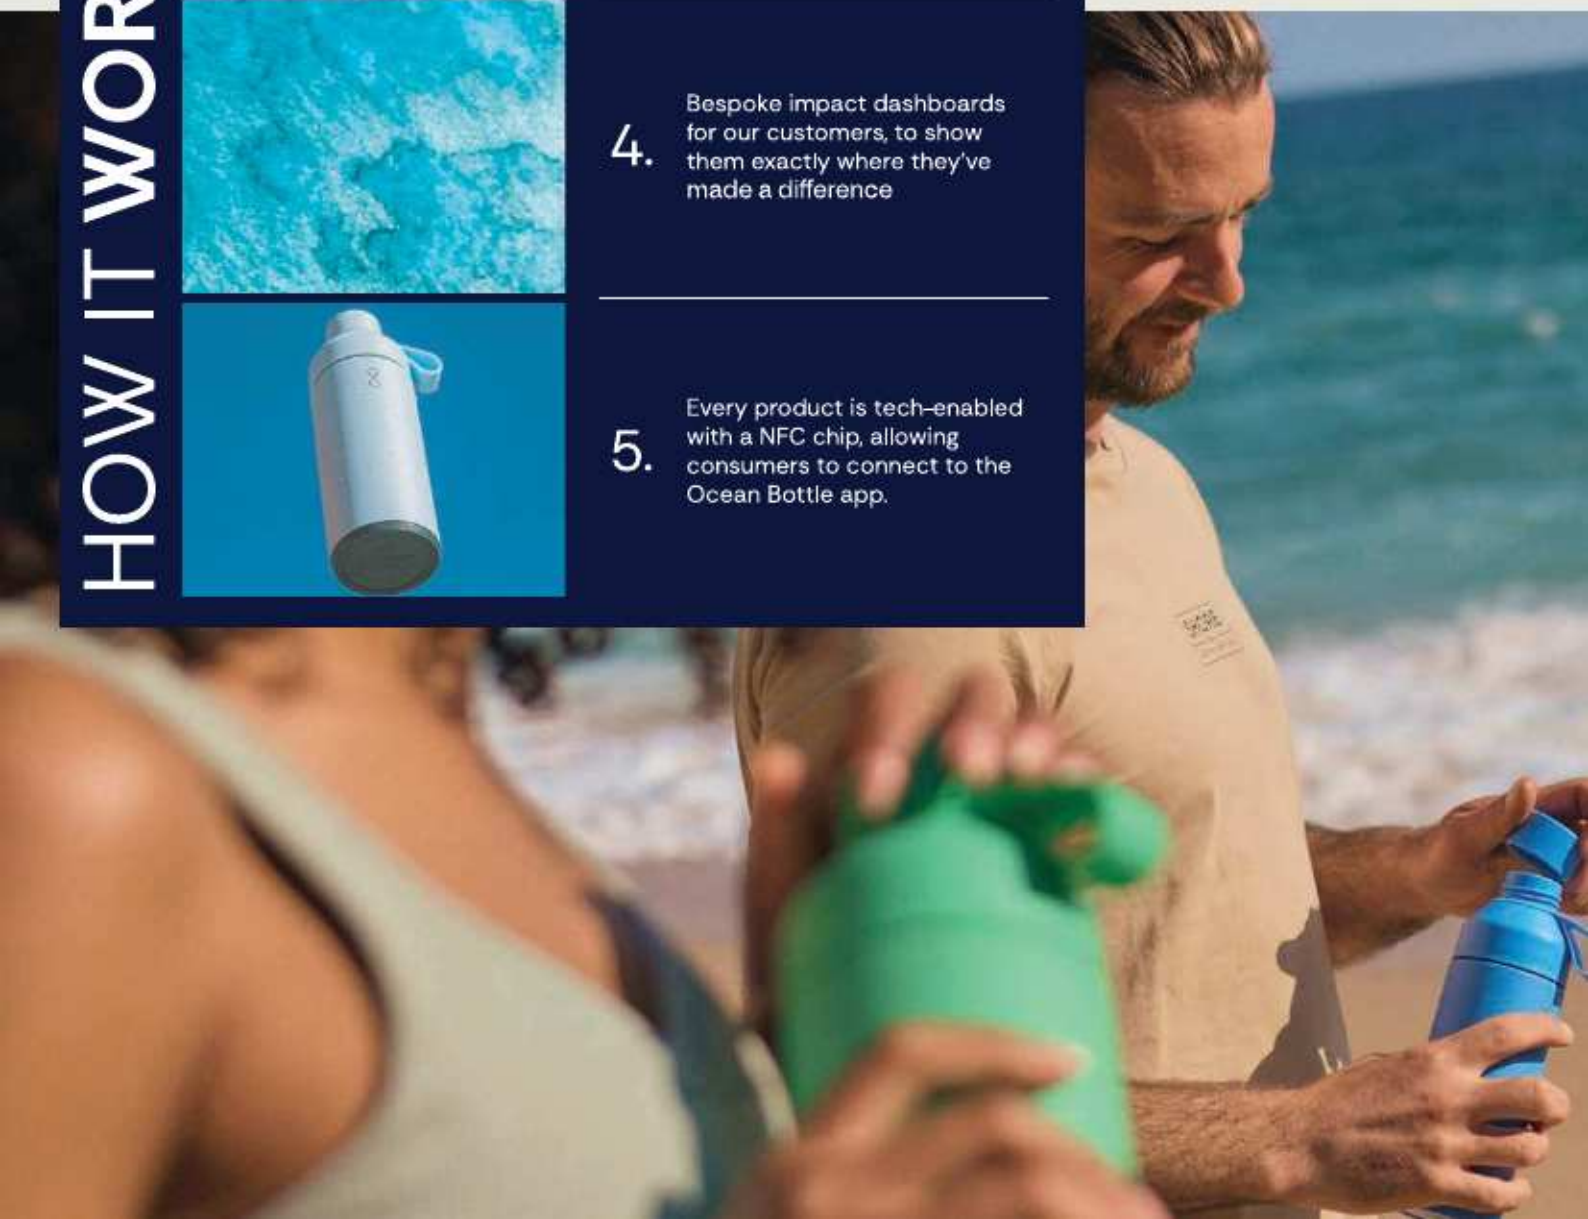

4. Bespoke impact dashboards for our customers, to show them exactly where they've made a difference

5. Every product is tech-enabled with a NFC chip, allowing consumers to connect to the Ocean Bottle app.

The Ocean Bottle app keeps on giving

Register your bottle after purchase and Ocean Bottle will collect even more ocean-bound plastic every time you refill, as well as hooking you up with local refill spots.

We believe that Circular Design can save the world.

Circular Design is a workable solution at a time when the world desperately needs solutions. We create products made with recycled materials, designed to last and fully recyclable. We work to a simple yet immensely challenging rule of 100-10-100. Any product created can only be justified if it's trying to or helping to achieve 100% recycled content, designed for at least 10 years use and then 100% recyclable at the end of its useful life.

THE END OF GREENWASHING

TRANSPARENCY, TRACEABILITY, AND GENUINE SUSTAINABLE IMPACT

We believe true sustainability can only be achieved when there is transparency and traceability. Without genuine proof of the use of recycled materials in a product, all sustainability claims can be considered greenwashing. Our IMPACT and CHANGE collections aim to end greenwashing and lead our industry in a new direction.

IMPACT THE POWER OF TRACEABILITY

AWARE®

All recycled content claims are validated with AWARE™ which unites a physical tracer with public blockchain technology for trusted traceability.

CHANGE. SERIOUS SUSTAINABILITY

DESIGN & SUSTAINABILITY

CHANGE Collection is all about design, sustainability & giving back. All recycled fabrics, plastics, and materials used in this collection are 100% certified by the Global Recycled Standard (GRS) and Recycled Claim Standard (RCS).

From each of these collections, 2-3% of sales are donated to  water.org* to help provide water-stressed communities with lifetime access to safe water & sanitation.

RECYCLED PET FABRIC

Giving Plastic a Second Life

PET is one of the most common plastics, widely used for bottles and packaging. Unfortunately, this also makes it a major contributor to global solid waste.

Recycled PET (RPET) offers a sustainable alternative. By reusing existing plastic instead of producing new resin, RPET reduces waste, lowers environmental impact, and gives discarded bottles a meaningful second life.

Benefits of producing Recycled PET fabric over normal fabric:

- Saves Energy
- Reduce pollution (CO₂ emissions)
- Fabric is sturdy - can produce Backpacks, Pouches, Laptop bags, Cooler bags.

We Stock Recycled PET fabric & can supply Bags / Pouches made from GRS certified RPET fabrics in our U.A.E. factory

Sustainability and Transparency Organization and Certification

Global Recycled Standard (GRS)

The Global Recycled Standard (GRS) is an international, voluntary, full product standard that tracks and verifies a product's recycled content, chain of custody, social and environmental impact and chemical restrictions.

The objective of the GRS is to define requirements to ensure accurate recycled content claims.

Recycled Claim Standard (RCS)

The Recycled Claim Standard (RCS) is used as a chain of custody standard to track recycled raw materials through the supply chain.

The GRS/RCS logo ensures the materials used in the product are genuinely recycled.

Forest Stewardship Council (FSC)

The Forest Stewardship Council (FSC) label is the world's most trusted mark for sustainable forestry.

FSC's pioneering certification system, which now covers more than 200 million hectares of forest, enables businesses and consumers to choose wood, paper and other forest products made with materials that support responsible forestry.
